### STORAGE, HANDLING, INSTALLATION and MAINTENANCE

#### STORAGE:

Prior to installation trash basket and rails should be stored in a dry area that is free of dirt and debris. Trash basket and rails should be stored on the original shipping pallets.

#### HANDLING:

Standard practice precautions should be taken whenever handling or moving palletized trash basket and rails by forklift.

#### INSTALLATION:

For proper installation, U.S.F. Fabrication, Inc. recommends the following:

1. Maneuver trash basket so that its guides or wheels fit into the rail on each side.
2. Attach a cable onto the lifting plate at the top of the trash basket. (Insure that a hook or some other device securely connects the cable to the lifting plate).
3. Lower the trash basket down the railing of the vault to its proper position in front of the inlet pipe of the vault. (Adjust the length of the cable so that the trash basket does not extend either above or below this pipe. If a hoist is going to be used for this operation, insure that sufficient cable remains to connect it to the winch).
4. Attach the free end of the cable to a cable holder or some other device so that it will be readily available for lifting the trash basket back up the railing.

## MAINTENANCE:

### Operation:

1. Whenever the trash basket needs to be emptied of the debris that has collected in it, draw it up to the top of the railing by pulling up on the free end of the cable.
2. Remove any debris that has collected in the basket.
3. Let the trash basket slide back down the railing inside the vault to its proper position.
4. Reattach the free end of the cable to the cable holder.

### Recommended Maintenance Schedule:

1. Inspection: During normal operation inspect that the trash basket has not been damaged by debris and is still functional.
2. Cleaning: Conducted whenever debris is removed from the trash basket.
3. Replacement: Replace when basket is not functioning as designed.

A replacement trash basket can be ordered through USF Fabrication Inc, 3200 W 84 St, Hialeah, FL 33018. Phone: 305-364-8200.
